## Fund Features

The investment objective of Tungsten TRYCON AI Global Markets Dynamic is to generate absolute income with a low correlation to the equity, bond and commodity markets in both rising and falling markets. To achieve this objective, the fund manager follows a systematic trading approach, utilising artificial intelligence. The envisaged target volatility should therefore be within a range of 10% and 15% p.a. The fund can make use of increased leverage to achieve the investment objective. This serves the purpose of bringing the earnings contribution of various volatile asset classes in the portfolio to a comparable level and thus achieving a higher diversification effect for the investor. The Fund Manager takes into account any risks related to sustainability (environmental, social and governance aspects) when making investment decisions and on an ongoing basis during the investment period of existing investments in the Fund. However, no assurance can be given that the investment policy objectives specified above will be achieved. This financial product does not promote any environmental and/or social characteristics. In the context of investment decisions, the investment strategy of the financial product does not include any binding ESG/sustainability criteria; this includes both the principal adverse impacts on sustainability factors in accordance with EU 2019/2088 Article 7(1) and the EU criteria for environmentally sustainable economic activities in accordance with EU 2020/852 Article 2(1).

This document is a marketing communication. The information contained in this document does not constitute any form of investment advice; it merely provides a brief summary of the essential features of the Fund. All information and data have been carefully put together, in part by drawing on information supplied by third parties. It may happen that individual data prove, in particular with the passage of time, to be no longer correct, or no longer wholly correct, on account of changes in the applicable legislation, on-going developments in the markets or other material circumstances, including short-term developments. Consequently, no warranty is given as to the accuracy, completeness or up-to-dateness of any of the data. It should be noted that the indication of the respective sales countries refers only to the existence of a marketing authorisation of the fund/sub-fund/unit certificate class in the respective country. The existence of any separate requirements for the investor profile must be checked individually by the investor. For EEA states, it is important to differentiate the investor profile. Investors are encouraged to consult their advisor to this effect. The particulars contained in this information may change at any time without prior notice. The data and information are based on our assessment of the current legal and tax situation. The fiscal treatment of the investment is dependent of the personal circumstances of the individual client and is subject to future changes. No liability is assumed or accepted in relation to any loss or damage that may arise, directly or indirectly, from the distribution or use of this product information or its contents.

Investing in investment funds carries with it the risk of price losses and currency losses, so that the future value of units may rise or fall in relation to their value at the time of acquisition. In so far as any statements are made concerning market developments, returns, price gains or other instances of asset growth, as well as risk ratios, these merely constitute forecasts for which we accept and assume no liability as regards the actual occurrence of the events predicted. In particular, previous performance, simulations and/or forecasts cannot be taken as a reliable indicator of future performance.

Full details concerning the Fund can be found in the key investor information and the sales prospectus, together with the latest audited annual report and, where data exist which are more recent than those contained in the latest annual report, the latest half-yearly report. These documents constitute the sole binding basis for any acquisition. In so far as any tax or legal interests are affected, these should be discussed by the addressee with his/her tax adviser or lawyer.
