Report of the Fund Manager

Review

A second Corona year is behind LOYS Sicav and its sub funds LOYS Sicav - LOYS Global and LOYS Sicav - LOYS Aktien Global. However, while the 2020 financial year was complicated, the sub funds were able to grow magnificently in the 2021 financial year.

The net performance was due not least to the significant recovery trends in the global economy. The key to this recovery was the development of effective vaccines against SARS COV 19, enabling a normalisation of economic life. Initial drug manufacturing bottlenecks were quickly overcome and there are now more vaccines than those willing to vaccinate, at least in the western world.

Development

The share classes of the two sub funds LOYS Sicav - LOYS Global and LOYS Sicav - LOYS Aktien Global performed as follows during the financial year:

LOYS Sicav - LOYS Global P	16.45%
LOYS Sicav - LOYS Global I	17.76%
LOYS Sicav - LOYS Global PAN	16.09%
LOYS Sicav - LOYS Global ITN	15.78%
LOYS Sicav - LOYS Aktien Global P	17.45%
LOYS Sicav - LOYS Aktien Global I	20.16%
LOYS Sicav - LOYS Aktien Global S	20.33%
LOYS Sicav - LOYS Aktien Global ITN	19.57%

Fund management contributed its share to the strong performance in the past fiscal year by making a targeted use of the stock exchange asymmetries triggered by Corona to fund positions.

There should be mentioned the tailwind, which was supported by the central banks' continuous zero interest rate policy. So, after the corona pandemic seemed to be largely out, however, new dark clouds had been raised in recent weeks. Exorbitantly higher prices for natural gas, coal, electricity and oil as well as the new Corona variant Omikron caused concern on the capital markets and in politics. The word of the year could therefore be chosen as inflation. The spectacular rise in the general cost of living to over 5% was not expected at the beginning of the year. The European Central Bank was almost ignorant of price increases. Well into December, in the ECB tower in Frankfurt was rumored that the increase was only temporary. In the course of this, the President of the European Central Bank had made it clear that a departure from the negative interest rate policy pursued for years would probably not be expected too quickly in 2022. Because the conditions that must be met for an increase in interest rates were not met. Other objectives apart from monetary stability have long been more or less visibly at the forefront of European central bank policy. Above all, public finance by the central press is a top priority. The ECB has made significant progress in this area. Central bankers also have ambitions in climate policy.

Outlook

As an outlook, however, it can be stated that the interest rate leaf will turn, especially in the US. The Federal Reserve announced that it would exit its extremely loose monetary policy faster than its European counterpart and start raising interest rates next year.

The traditional context is still valid: Higher interest rates are ceteris paribus poison for the equity market, while falling interest rates are a refreshment for it. Without a doubt, a relevant share of the brilliant stock market since March 2009 has been due to aggressive interest rate reduction policies of central banks. A precise observation and consideration of this mixture situation will therefore also be of immense importance in the opposite direction.

The impact of the Ukraine crisis on the sub funds is currently not conclusive. Although there are no direct holdings of securities in Ukraine or Russia, with the exception of Gazprom PJSC Nam.Akt. (Sp.ADRs)/2 RL 5 and LUKOIL PJSC Reg. SHS (Sp. ADRs)/1 RL, 025, there is a risk that indirect risks from the sanctions imposed, resulting market volatility or rising energy prices may affect the performance of the Fund or of business partners.

This report has been prepared in accordance with Luxembourg rules based on the going concern principle.

The value of a share ('share value') is the currency of the share class specified in the overview of the respective sub funds of the Company ('share class currency'). It is calculated by the Central Administration Agent or a third party appointed by it under the supervision of the Depositary on each day ('Valuation Day') specified in the prospectus of the relevant Sub Fund of the Company. The calculation of the respective subfund of the Company and its share classes is carried out by dividing the assets per share class by the number of shares of this share class in circulation on the valuation day. If annual reports and other financial statistics must provide information on the situation of the Company's assets as a whole on the basis of statutory regulations, this information is provided in the share class currency or The currency of the financial statistics ('reference currency') and the assets are converted into the reference currency.

The net assets of the Company are calculated in accordance with the following principles:

- a) Target fund units are valued at the last determined and available net asset value or Redemption price.
- b) The value of cash on hand or bank deposits, deposit certificates and outstanding claims, prepaid expenses, cash dividends and declared or accrued and not yet received interest shall be equal to the full amount in question, unless it is probable that the full amount will not be paid or received, in which case the value will be determined including an appropriate discount, in order to obtain the actual value.
- c) The value of assets listed or traded on a stock exchange or other regulated market shall be determined on the basis of the last available price, unless otherwise specified below.
- d) If an asset is not listed or traded on a stock exchange or other regulated market or if, for assets listed or traded on a stock exchange or other market as mentioned above, the prices do not appropriately reflect the actual market value of the relevant assets in accordance with the provisions in c), the value of such assets is determined on the basis of the reasonably foreseeable sales price on a prudent basis.
- e) The liquidation value of futures, forwards or options not traded on stock exchanges or other organised markets corresponds to the respective net liquidation value as determined on a consistent basis for all types of contracts in accordance with the guidelines established for the Company. The liquidation value of futures, forwards or options traded on stock exchanges or other organised markets is calculated on the basis of the last available settlement prices of such contracts on the stock exchanges or organised markets on which these futures, forwards or options are traded by a Sub Fund; if a future, forward or option cannot be liquidated on a day for which the net asset value is determined, the valuation basis for such a contract is determined by the Company in an appropriate and reasonable manner.
- f) Swaps are valued at their market value. Care is taken to ensure that swap contracts are entered into on arm's length terms in the exclusive interest of the Company.
- g) Money market instruments may be valued at their respective market value as determined by the Company in good faith and in accordance with generally accepted valuation rules verifiable by auditors.
- h) All other securities or other assets are valued at their fair value as determined in good faith in accordance with the procedure to be issued to the Company.
- i) Interest attributable to securities is included to the extent that these have not been included in the market value (dirty pricing).

The value of all assets and liabilities not expressed in the reference currency of the relevant Sub Fund is converted into this currency at the last available exchange rate. If such prices are not available, the exchange rate shall be determined in good faith and in accordance with the procedure established by the Company.

The Board of Directors may, at its discretion, permit other valuation methods if it deems it appropriate in the interests of a more appropriate valuation of an asset.

Where the Board of Directors considers that the Net Asset Value determined on a particular Valuation Day does not reflect the actual value of the relevant Shares, or where there have been significant movements on the relevant stock exchanges and/or markets since the determination of the Net Asset Value, the Board of Directors may decide to update the Net Asset Value on the same day in good faith. In such circumstances, all subscription, conversion and redemption applications received on such Valuation Day will be executed on the basis of the updated Net Asset Value.

During the financial year, no SFTs and total return swaps within the meaning of Regulation (EU) 2015/2365 of the European Parliament and of the Council of 25 November 2015 on the transparency of SFTs and their re use and amending Regulation (EU) No 648/2012 ('SFTR') were used for the LOYS Aktien Global sub fund. Consequently, the annual report for this Sub Fund does not include any information to investors within the meaning of Article 13 of that Regulation.

Additional information on the effects of COVID-19: The medium to long term economic and social impact of the COVID 19 pandemic cannot be predicted sufficiently. In the opinion of the Management Company, there are no liquidity problems for the Fund at the time of the preparation of the Annual Report. The effects on the Fund's unit certificate business are continuously monitored by the Management Company. The unit certificate transaction shall be properly executed at the time of the preparation of the annual report.

Risk warnings on Ukraine conflict

At the end of the financial year, the sub fund LOYS Sicav - LOYS Global invested in Russian securities with a total volume of EUR 15,442,301.75. This represents 6.01% of the fund's net assets as of the reporting date.

The value of Russian securities was properly measured at year end on the basis of the last available price in accordance with the valuation principles set out above.

In the wake of the outbreak of the Ukraine war, the fund manager sold one third of its Russian stocks.

From the inventory of Gazprom PJSC Nam.Akt. (Sp.ADRs)/2 RL 5 (US 3682872078) 400,000 shares had been sold at USD 2.8084 per share as of the closing date 28 February 2022. This resulted in a realised share price loss of USD 1,801,389.98 (EUR 1,603,516.09).

From the inventory of LUKOIL PJSC Reg. SHS (Sp. ADRs)/1 RL, 025 (US69343P1057) 25,000 shares had been sold at USD 21.9238 per share as of the closing date 28 February 2022. This resulted in a realised share price loss of USD 959,417.05 (EUR 854,029.78).

The further course of the war and the effects of the sanctions imposed on Russia have led to a suspension of trading on the London Stock Exchange with effect from 3 March 2022. Since then, the securities have been valued in accordance with the resolution of the Board of Directors of 15 March 2022 at the last available prices of the regular price source.

Type (s) and quality (s) of collateral received

Within the framework of securities lending, the Fund receives collateral whose value, taking into account the haircuts listed below, for the duration of the agreement corresponds to at least 90% of the total value of the securities lent (taking into account interest, dividends and any other claims). In particular, such collateral must comply with the requirements laid down in CSSF Circular 08/536 and 14/592 and consists, for example, but not exclusively, of liquid assets, fund units, bonds and shares.

Collateral received is valued on a valuation day basis using available market prices and taking into account appropriate valuation haircuts applied by the Management Company for each asset type of the Fund on the basis of the Management Company's haircut strategy. This strategy takes into account several factors depending on the collateral received, such as the creditworthiness of the counterparty, issuer country of origin, maturity, currency and price volatility of the assets.

The valuation haircuts applied by the Management Company may be as follows:

- Cash up to 2%
- Government bonds up to 6%
- Corporate bonds/bank bonds (maximum term to maturity of 10 years) up to 6%
- Equities that are listed on a regulated market within the EU or OECD and are represented in a leading index up to 5%
- Convertible bonds up to 15%
- Target funds (daily valuation) up to 10%.

In addition, the Management Company reserves the right to increase the valuation haircuts on the collateral in the event of unusual market situations or other justified individual cases.

REPORT OF THE REVISEUR D'ENTREPRISES AGREE

Report on the audit of the financial statements

Opinion

We have audited the financial statements of LOYS Sicav and each of its sub-funds ("the Fund"), which comprise the statement of net assets and the statement of investments and other net assets as at 31 December 2021 and the statement of operations and the statement of changes in net assets for the year then ended, and notes to the financial statements, including a summary of significant accounting policies.

In our opinion, the accompanying financial statements give a true and fair view of the financial position of LOYS Sicav and each of its subfunds as at 31 December 2021, and of the results of their operations and changes in their net assets for the year then ended in accordance with Luxembourg legal and regulatory requirements relating to the preparation and presentation of the financial statements.

Basis for opinion

We conducted our audit in accordance with the Law of 23 July 2016 on the audit profession ("Law of 23 July 2016") and with International Standards on Auditing ("ISAs") as adopted for Luxembourg by the Commission de Surveillance du Secteur Financier ("CSSF"). Our responsibilities under the Law of 23 July 2016 and ISAs as adopted for Luxembourg by the CSSF are further described in the « Responsibilities of "réviseur d'entreprises agréé" for the Audit of the Financial Statements » section of our report. We are also independent of the Fund in accordance with the International Code of Ethics for Professional Accountants, including International Independence Standards, issued by the International Ethics Standards Board for Accountants ("IESBA Code") as adopted for Luxembourg by the CSSF together with the ethical requirements that are relevant to our audit of the financial statements, and have fulfilled our other ethical responsibilities under those ethical requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Other information

The Board of Directors of the Fund is responsible for the other information. The other information comprises the information stated in the annual report but does not include the financial statements and our report of the "réviseur d'entreprises agréé" thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

Only the signed version of the financial statements has been audited by the réviseur d'entreprises agréé and the audit report only refers to this version. In any case of doubt the original signed document shall prevail.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report this fact. We have nothing to report in this regard.

Responsibilities of the Board of Directors of the Fund and Those Charged with Governance for the financial statements

The Board of Directors of the Fund is responsible for the preparation and fair presentation of these financial statements in accordance with Luxembourg legal and regulatory requirements relating to the preparation and presentation of the financial statements, and for such internal control as the Board of Directors of the Fund determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the Board of Directors of the Fund is responsible for assessing the Fund's and each of its sub-fund's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Board of Directors of the Fund either intends to liquidate the Fund or any of its sub-fund's or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Fund's financial reporting process.

Responsibilities of the "réviseur d'entreprises agréé" for the audit of the financial statements

The objectives of our audit are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue a report of the "réviseur d'entreprises agréé" that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with the Law of 23 July 2016 and with ISAs as adopted for Luxembourg by the CSSF will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with the Law of 23 July 2016 and with ISAs as adopted for Luxembourg by the CSSF, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Fund's internal control.

Only the signed version of the financial statements has been audited by the réviseur d'entreprises agréé and the audit report only refers to this version. In any case of doubt the original signed document shall prevail.

- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Board of Directors of the Fund.
- Conclude on the appropriateness of the Board of Directors of the Fund's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Fund's or any of its subfund's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our report of the "réviseur d'entreprises agréé" to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our report of the "réviseur d'entreprises agréé". However, future events or conditions may cause the Fund or any of its sub-funds to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

The investments underlying this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Remuneration Policy

If payments have been made to the Board of Directors of the investment company ('société d'investissement à capital variable' or 'SICAV'), these are shown under the heading 'Statement of Operations' in this report.

In accordance with the applicable legal and regulatory requirements on undertakings for collective investment, LOYS Investment S.A. has defined principles for their remuneration system. These principles are consistent with and promote the sound and effective risk management of the Company and do not encourage the assumption of risks that are incompatible with the risk profiles, contractual terms and conditions or statutes of the investment funds it manages.

It takes into account the long term and sustainable development of the Management Company in accordance with its business strategy, objectives, values and interests, as well as the interests of its funds and investors, and prevents conflicts of interest.

LOYS Investment S.A. aims to offer its employees fair and competitive total compensation. This may include fixed and variable elements as well as monetary and non monetary fringe benefits. The components are measured in accordance with the risk principles, market practise and appropriateness. With regard to total remuneration, these fixed and variable components are proportionate and the proportion of the fixed component in the total remuneration is sufficiently high that a flexible policy with regard to the variable component is possible without restriction and that the payment of a variable component can also be dispensed with entirely. The variable remuneration is therefore only a supplement to the fixed remuneration and does not provide incentives to take inappropriate risks. Thus, the remuneration system is designed to avoid creating a significant dependency of employees on variable remuneration in order to avoid misincentives. The remuneration system shall be reviewed at least annually and, if necessary, adjusted to ensure appropriateness and compliance with legal requirements.

In the financial year 2021, LOYS Investment S.A. employed an average of 6 employees, 6 of whom were identified as risk takers in accordance with ESMA Guideline ESMA/2016/411, Point 19. In 2021, these employees were paid salaries of EUR 352 thousand, of which EUR 11 thousand as variable remuneration.
