The customer shall bear all expenses incurred when the Branch acts on his behalf or in his presumed interest. Unless the origin of the charges is stated otherwise in the List of Prices and Services (e.g. third-party costs or taxes), these are commissions charged by the Branch.

Irrespective of the conditions listed in the List of Prices and Services, the individually concluded agreements between the client and the Branch shall take precedence.

Changes of conditions

The Branch reserves the right to adjust the conditions to market conditions. Unless otherwise agreed, the statutory provisions shall apply to changes in remuneration for services provided on behalf of the client or in the client's presumed interest and which, judging by the circumstances, can only be expected to be provided against remuneration. Rejection of orders

If the conditions for execution, according to the respective special conditions are not met, the Branch may refuse to execute the order. The Branch shall inform the client thereof without undue delay.

In this context, the Branch will - as far as possible - indicate the reasons for the rejection as well as the ways in which, for example, inaccuracies that led to the rejection can be corrected.

In all other respects, the General Terms and Conditions and the special terms and conditions applicable in each case (e.g. terms and conditions for bank transfers) shall apply.

¹ The main business of the Branch is the provision of depositary and paying agent services for fund and securitization structures. The Branch therefore offers account and custody services for funds, securitizations, and *fund-induced companies* in connection with corresponding service agreements. The Branch does not have any traditional retail or corporate banking business, which is why account maintenance for non-fund-induced (other) companies is considered upon request.

² In addition, an electronic connection of the account maintenance is required. Separate fees apply for paper-based payment transactions (**Chapter D - Payment Transactions**).

³ The interest rates for current account interest depend on the respective currency and the market situation on the money and capital markets, and may therefore vary. The Branch charges *the respective cost rate* per currency plus margin retroactively on the basis of a monthly average. Depending on the respective cost rate, it is therefore not excluded that credit interest may also be negative.
